

## CASTROL OPTIGEAR SYNTHETIC X 320 VS THE GLOBAL MARKET LEADER'S PRODUCT

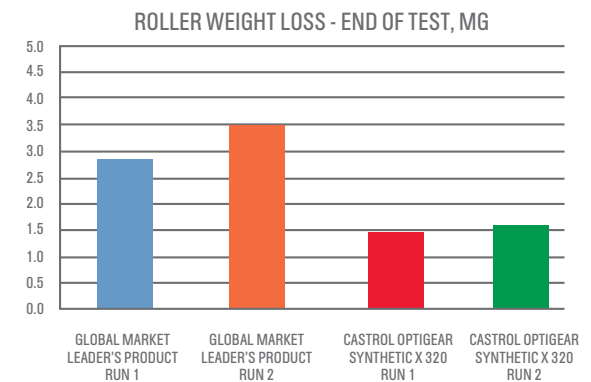

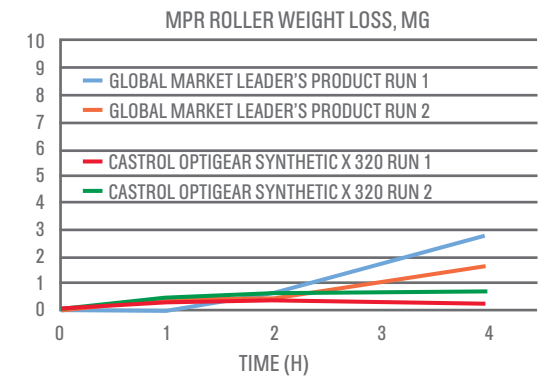

THE TECHNOLOGY  
INSIDE

**THE FACTS:** WEIGHT LOSS ON ROLLERS IS REDUCED BY MORE THAN 50% WHEN COMPARED TO THE GLOBAL MARKET LEADER'S PRODUCT\*

**THE RESULT:** GREATER PROTECTION AGAINST COMPONENT DAMAGE\*

Independent testing measuring component weight loss has demonstrated that Castrol Optigear Synthetic X 320 gives significantly more protection against potentially damaging micro-pitting than the global market leader's product. Results show that Castrol Optigear Synthetic X 320 shows significantly lower component weight loss than the global market leader's product, to protect your turbine gearbox from fatigue and micropitting wear and significantly reducing maintenance costs and downtime.

\*Powertrib independent study using MPR (Micro-, Macro Pitting) conducted at 60°C on 6th May 2010

IT'S MORE THAN JUST OIL. IT'S LIQUID ENGINEERING.
