

A special initiative to help industrial businesses ramp up operations.

BOUNCE BACK STRONG WITH CASTROL

We Help Make It Happen

As markets come out of the lockdown phase, the demand is expected to rise again. This means you will need to quickly get your production back to full swing in a safe manner.

The disruption in global supply chains also poses a challenge in the timely procurement of input materials.

We understand that in these times, you need a reliable partner who can continuously support you through the several phases yet to come.

THE RESTART OFFER

As you get ready to ramp up productions, it will be extremely important that you do so in the right way. You will need to ensure the availability of raw materials and handle many other important things.

From assuring safe team collaboration, proper supply chain management to end-to-end technical assistance - we help make it happen.

**REMOTE

MONITORING**

To decide on sump changeover

**RELIABLE
PROCUREMENT**

For all lubricant requirements

VIRTUAL TECHNICAL SUPPORT

For running operations smoothly

RE-INTRODUCING RESTART

REMOTE CONDITION MONITORING

Whether the local regulations allow our teams to travel to your site or not, we will ensure that our teams support you with condition monitoring of your lubricant and give you the right technical advice remotely.

RELIABLE PROCUREMENT

With our global supply chain network, we can ensure proper lubricant supply for uninterrupted business operations.

As you ramp up your production, we will be the reliable partner who can supply all your lubricant requirements across different applications.

VIRTUAL TECHNICAL SUPPORT

We will continue to engage with you and your teams to share the best practices, troubleshoot and provide ongoing support remotely.

HOW CAN CASTROL HELP YOU?

GREATER PRODUCTIVITY

Our long-lasting stable-pH lubricants are proven to protect against equipment failure, extending both sump life and maintenance intervals.

TIGHTER QUALITY CONTROL

Our lubricants help maintain surface finish, protect against corrosion and eliminate discoloration.

INCREASED EFFICIENCY

By increasing equipment lifespan, while reducing lubricant and additive use, our lubricants reduce waste and operating costs.

OPTIMISED GLOBAL OPERATIONS

Our technical support and data analytics help make machining processes and maintenance schedules run smoothly – no matter where you are.

OUR PRODUCT RANGE

METAL WORKING FLUIDS

Cast Iron Machining General Purpose Grinding

Hysol 3505
Hysol 6519
Hysol T 15
Almaredge 880

High Performance Machining

Hysol MB 50
Alusol SL 61 XBB
Hysol SL 35 XBB

Synthetic

Syntilo 9930
Syntilo 9904
Syntilo 2000
Syntilo NF

General Purpose

Almaredge SL
Almaredge BI

Aluminium Machining

Alusol SL 61 XBB
Hysol EP 690
Almaredge BI

Honing Gear Cutting

Honilo 980
Honilo 981
Variocut G 408 HC
Ilocut1945

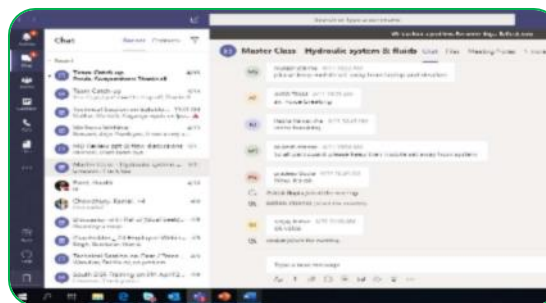

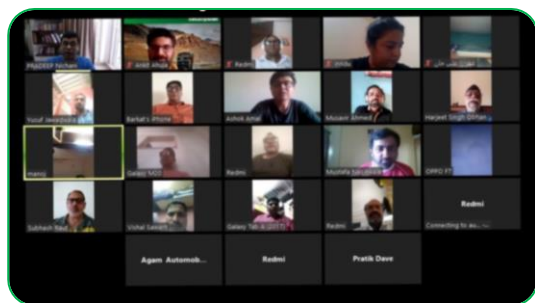

CORROSION PREVENTIVES

Rustilo DW 901
Rustilo DW 902
Rustilo DWX 32 IN
Rustilo DWX 30
Rustilo 401 CR

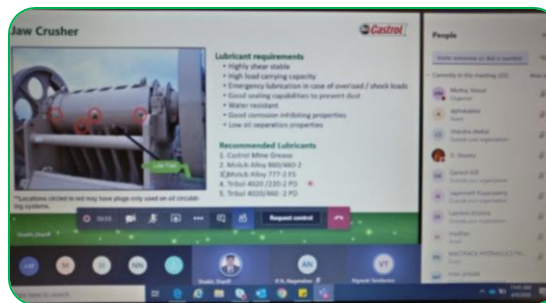

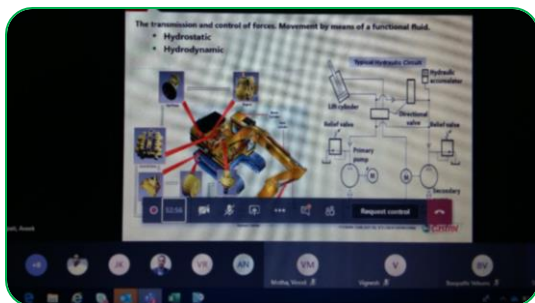

HYDRAULIC OILS

Hyspin AWH Series
Hyspin AWS Series
Hyspin VG Series

SUPPORTING YOU REMOTELY

Our teams are constantly in touch with our customers to provide all technical support via phone calls, video meets or chat. We also conduct technical training and webinars for added assistance.

RESTARTING IS BETTER WHEN WE DO IT TOGETHER.

If you are restarting your operations and require assistance regarding lubricant related solutions, get in touch today!
