

CASTROL® RADICOOOL™ HEAVY DUTY PREMIX

Castrol Radicool Heavy Duty Premix is a premium quality, conventional technology ethylene glycol-based fluid. The product is specially formulated with industry-leading additives to provide optimum performance in heavy duty vehicles requiring supplemental coolant additives (SCAs).

ADVANTAGES:

Castrol Radicool Heavy Duty Premix is your cooling system's best defense.

- Contains nitrites for superior wet sleeve liner cavitation protection.
- Provides freeze and boil-over protection.
- Designed for heavy duty applications, yet can be used in automotive applications where conventional technology coolants are acceptable.
- Phosphate-free with low silicates.
- Effective, long-term corrosion protection for steel, solder, copper, iron, brass and aluminum.
- High-quality defoamer system, non-harmful to hoses, plastics or gaskets.
- Compatible with most major American brands of conventional coolants, with and without the addition of SCAs.*
- Appropriate for use in on-and off-road diesel engines, as well as in stationary engine applications where a conventional pre-charged coolant is required.

*SCA levels will need maintaining throughout the life of the engine.
Always consult the vehicle owner's manual for guidance.
